chackers. It cured him of a bad cold and I don't know what else."

No more conclusive evidence than the above could be offered that every ingredient of Cutioura Olatment is absolutely pure, sweet and harmless. If it may be safely eaten by a young child, none but the most beneficial results can be expected to attend its application to even the tenderest skin or youngest infant. This feeling is shared by mothers and nurses to such an extent that Cuticura Soap and Cuticura Oinment have for many years been unhesitatingly used throughout the civilized world for preserving, purifying and beautifying the skin, scalp, hair and hands of infants and children from the hour of birth. And greater still, if possible, is the confidence reposed in Cuticura Remedies for the treatment of torturing and disfiguring humors of the skin and scalp. The suffering which they have thus alloviated among the young and the comfort they have afforded worn-out and worried parents have led to their adoption in countless homes as priceless agents in the speedy, permanent, safe and economical treatment of infantile and birth humors, ecuencs, rashes, irritations, inflammations and chafings, and other itching, scaly and pimply humors when all other remedies suitable for children fall.
